

Unit Covered	Estimated Date of Instructions	Objectives
Unit 1 Orientation To Technology Discovery	Aug. 14 - 24, 2007	To understand general policies and lab safety procedures for this course and how to investigate careers and workplace skills.
Unit 2a Introduction To Technology Discovery	Aug. 27 - Sept 15, 2007	To be able to describe the components of Technology including it's evolution, system modules, problem solving process and design process.
Unit 2b System Diagrams and the Resources of Technolog	Sept. 18 - Oct 5, 2007	To be able to describe terms and concepts of Manufacturing and investigate careers in Manufacturing.
Unit 10 Manufacturing Technology	Oct. 17 - 27,2006	To be able to describe terms and concepts of Manufacturing and investigate careers in Manufacturing.
Units 3-9, 11-13, & 15 Module Rotations	Check Schedule Below	In these Units students will describe terms and concepts related to each technology and investagate carees involed in that technology using a 9 -10 day computer lesson.
Rotation 1	OCT. 30 - Nov. 10,2007	Check Rotation Schedules
Rotation 2	Nov.18 - Dec. 1. 2007	Check Rotation Schedules
Rotation 3	Dec. 4 - 15, 2007	Check Rotation Schedules
Rotation 4	Jan. 9 - 26, 2007	Check Rotation Schedules
Rotation 5	Jan. 29 - Feb. 2, 2008	Check Rotation Schedules
Rotation 6	Feb.12 - 23, 2008	Check Rotation Schedules

Rotation 7	March 19 - 30, 2008	Check Rotation Schedules
Rotation 8	April 2 - 13, 2008	Check Rotation Schedules
Rotation 9	April 16 - 25, 2008	Check Rotation Schedules
Rotation 10	April 28 - May 12, 2008	Check Rotation Schedules
Unit 14 Emerging Technology	May 12 - 16, 2008	To investigate an approved Emerging Technology and create a written and oral report using research approved by the teacher
Rotation 11	May 18 - 23, 2008	Check Rotation Schedules

Technology Discovery consists of 15 units objectives. Units 1 and 2 use a traditional classroom instruction. Units 3 – 13 and 15 are computer based module instructions with hands on method learning. Unit 10 is instructions with lessons consisting of group and classroom activities. Unit 14 is a written report and a verbal report on a student's research. Computer based module instruction are completed in pairs on a rotation between modules.
